The Mindful Virtual Assistant

HEY THERE, I'M JENN!

I created The Mindful Virtual Assistant after years of working in corporate. The structure I saw was essential to running a business and I wanted to bring that same feeling to overwhelmed small business owners.

As a former life coach and a current small business owner, I know how important it is to have systems that work. Plus, when you add a touch of mindfulness, magic happens. Over the years, I've developed proven systems that manage all aspects of business, keep operations running smoothly, and give you back more precious time in your life.

I specialize in admin support, creating systems that boost efficiency, and figuring out the puzzle I call back end operations. Plus, I offer email marketing, as well as consulting and strategy.

I'm excited for the opportunity to work with you, help you create a framework that fits, and watch your business grow!

HOW TO GET STARTED

1 LET'S CHAT!

We get on a Zoom call and get to know each other. And I get to learn how I can best serve you and your business!

2 MAKE IT OFFICIAL!

If we hit it off, I'll send a proposal with all the specifics for you to review. Or we can skip to the good part (AKA the Services Agreement).

3 MAKE YOUR PAYMENT

Once you've signed on the dotted line, I'll send an invoice for you to make your initial payment.

4 THEN WORK BEGINS

Once your invoice is paid, we start with a kick-off call to discuss all the details of the project and make sure I have access to all the necessary systems.

ADMIN SUPPORT

Want to reclaim your inbox and say goodbye to your overbooked calendar? Then this package is for you!

Inbox Support

I'll start with an audit to see exactly where your inbox stands (Promise, no judgement!). Then, I'll clean up the spam, unsubscribe to unwanted emails, create labels for emails you want to archive and keep. Plus, I'll share recommendations for rules to keep everything neat and tidy. The goal is to get you to Inbox Zero each week, so you can focus on what matters most.

Calendar Support

Similar to Inbox Support, I start with an audit to spot any scheduling hiccups and gaps. Then, we'll create a color-coding system for easy identification of events and use time blocking to boost your productivity. I'll keep watch for any new invites and update you daily your schedule. Plus, I'll make sure your personal and business calendars are integrated so you only have to go to one place to see everything and avoid conflicts.
